Re: CC Docket 94-102
E911 Handset Penetration Quarterly Report
Carolina West Wireless, Inc.
formerly North Carolina RSA 3 Cellular Telephone Company

Dear Ms. Dortch:

On behalf of Carolina West Wireless, Inc.,¹ there is submitted herewith a report of the status of the carrier's progress in achieving 95% systemwide handset of location-capable handsets.

Carolina West Wireless, Inc. is a Tier III digital wireless carrier operating cellular radiotelephone services in North Carolina RSAs 2 and 3. This report is submitted in compliance with the terms of the *Order*, CC Docket No. 94-102, FCC 06-02, released January 13, 2006, conditionally granting Carolina West Wireless, Inc. an extension through December 31, 2006, of the deadline for compliance with Section 20.18(g)(1)(v) of FCC rules, 47 C.F.R. § 20.18(g)(1)(v).

Pursuant to Sections 0.457(d) and 0.459 of FCC Rules, it is hereby requested that the information reported herein be treated by the Commission as confidential, and be withheld from public inspection. The information, which would not customarily be released to the public, is confidential commercial information, and should be protected in accordance with Sections 0.457(d) and 0.459 of FCC Rules.

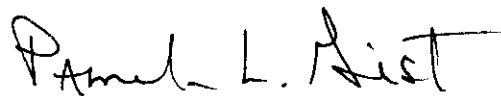

^{1/} The corporation adopted Articles of Amendment on November 23, 2005, to formally change its name from North Carolina RSA 3 Cellular Telephone Company to Carolina West Wireless, Inc.

CAROLINA WEST WIRELESS, INC.

E911 REPORT

FEBRUARY 1, 2006

The following information is submitted in accordance with FCC directive:

1. The number and status of Phase II requests from Public Safety Answering Points

Seven PSAPs are located within Carolina West Wireless' service area. All have requested Phase II services. Carolina West Wireless is delivering Phase II data, and it is being processed by all seven PSAPs.

2. The dates on which Phase II service has been implemented or will be available to PSAPs served by Carolina West Wireless' wireless network

Phase II service is currently available to all PSAPs served by the network.

3. The status of coordination efforts with PSAPs for alternative 95% handset penetration dates

Carolina West Wireless is actively working with the PSAPs to keep them informed of the carrier's progress in achieving higher location-capable handset penetration rates. Greg Roark, Network Supervisor, contacts each PSAP on a monthly basis to report the penetration figure. The response of each PSAP has been positive, with no PSAP expressing objection to the projected schedule.

4. Efforts to encourage customers to upgrade to location-capable handsets

Carolina West Wireless has adopted a plan to notify customers that all seven Public Safety Answering Points (“PSAPs”) located within Carolina West Wireless’ service area are capable of receiving and processing the Phase II E911 data that is being delivered to them by Carolina West Wireless. By means of billing inserts, print advertising, radio advertising and on hold messages, customers will be informed that by upgrading their handsets they will have the ability to automatically transmit their location information to emergency officials when they call 911.

Carolina West Wireless also conducts campaigns advertising the safety and coverage advantages of the CDMA system, and offering existing subscribers new handsets with the signing of a new contract. The attached samples are currently in circulation. The newer campaigns will advertise as a feature of the new phones their location assistance capabilities in the event of emergency. Direct mail campaigns and special offers are included in the enticement program. The promotions also include retention related efforts designed to entice existing customers into Carolina West Wireless’ stores where only location-capable phones are sold. Once existing TDMA and analog customers are in the stores, representatives proactively sell the benefits of CDMA and urge migration to a new CDMA handset.

5. The percentage of customers with location-capable phones

As of January 1, 2006, 75.43% of Carolina West Wireless's subscribers were using Phase II location-capable handsets. The percentage rate has risen eight percentage points over the last four months.

6. Status in achieving compliance and whether Carolina West Wireless is on schedule to meet its revised 12/31/06 deadline

Carolina West Wireless maintains its policy of selling and activating only location-capable digital handsets. It continues to augment its CDMA network facilities and to conduct marketing campaigns to encourage consumer adoption of new handsets. The penetration rate of location capable handsets is increasing by about two percent per month. At that rate, Carolina West Wireless expects to be compliant no later than December 31, 2006.

We've added a cell site in your area...

To take advantage of the enhanced service, you'll need to
upgrade your current phone for a new CDMA phone!

we're giving you a

FREE Kyocera
Activ

or up to \$50*

to use toward a new CDMA phone!

*See store for details.

**Carolina West
Wireless**

Great News! We've expanded our service
in your area. We've recently added a new
cell site to Piney Creek. We now have more than 70
cell sites throughout our 11-county service area—more than any
other carrier in the region.

However, the new cell site is equipped with our new CDMA
technology. To get the most from your wireless service and
the new cell site, you'll need to upgrade your current TDMA
or analog phone for a new CDMA phone. Bring in this
protocol & we'll reward you with a FREE Kyocera Activ
phone or up to \$50 to use on a new CDMA phone when you
extend your contract.

We have a wide selection of CDMA phones to choose from,
including phones with cameras, FM radios, & much
more. We encourage you to upgrade your old phone, so you
can enjoy the benefits of the new CDMA cell sites.

We appreciate your continued business!

*Offer may be limited to CDMA phone models. Excludes previous Carolina West
customers. See store for details. See store for details.
